IMPORTANT SANITARY IMPROVEMENT.—The cheapest and most efficient protection against Sewer and Noxious Vapours arising from drains, cesspools, &c. &c.

MEESON'S PATENT SELF-ACTING AND SELF-CLEANSING HYDRAULIC TRAPS.

Thousands have now been used in all parts of the kingdom with the greatest success for hotels, mansions, &c., which may be had of the Office, 14, Lombard-street.

Efficiency and durability are guaranteed.

MEESON AND CO., ENGINEERS AND PATENTEES OF REVOLVING IRON AND WOOD SHUTTERS, METAL SASHES, DOUBLE TRAPPED SELF-ACTING WATER-CLOSETS, &c. &c.

Office, 14, Lombard-street; Works, Deptford, Kent.

SMITH'S REGISTERED AUTOMATON CLOSET PAN and TRAP ..... 7s. 6d. WITH OUTLET JUNCTION and ATMOSPHERIC CAP for communication with the trap and soil-pipe, extra ..... 2s. 6d.

The above are adapted for general purposes, but were expressly designed in connection with SMITH'S PATENT AUTOMATON, or SELF-ACTING FLUSHER, forming together the cheapest and most efficient combination ever introduced; detailed prospectus and prices of which may be had of THOS. SMITH, Stone Ware Drain Pipe Manufacturer, 78, Princes-street, Lambeth.

STOCK and SON'S SOIL-PAN SERVICE-BOX.

The object of this contrivance is to facilitate the introduction of sanitary improvements into the dwellings of the working classes, by the addition of such an inexpensive and simple apparatus as will enable the occupant supply himself of water service to be made available for the removal of the refuse, by preventing the enormous waste of water in places of this description, to which water companies now so strongly and so properly object. By the use of this service-box an ample supply of water is obtained, with—in the possibility of its being wasted by propping the valve, weighting the handle, or by other means. It is so constructed that, as long as the discharge-valve remains open, a sufficient supply cannot enter the service-box from the main.—Drawings and descriptions may be obtained from STOCK and SON, manufacturers of plumbers' ironwork, gas-fittings, and church furniture, in iron and brass, Temple-street, Birmingham.

VITRIFIED and GLAZED STONE-WARE PIPES.

WILLIAM THOMPSON, Manufacturer of Superior Glazed Stone-ware Pipes, Bends, Junctions, Closet Pans, Traps, Terra Cotta Chimney-pots, Vases, &c., NETTLERED POTTERY, near HEALEY on THAMES. Depot for London, Purfleet Wharf, Hammersmith-road-bridge, Camden-town.

JOHN DOULTON, Jun.,
LIVERPOOL POTTERY,
ST. HELENS, LANCASHIRE.

The most economical and efficient system of Drainage is formed with

DOULTON'S STONE WARE PIPES.

Testimonials as to their superiority have been received from the Borough Engineers of Liverpool, Glasgow, and other cities.

FIRE CLAY FLUE PIPES,
TERRA COTTA CHIMNEY TOPS, &c. &c.
WAREHOUSE, 70, SOHO-STREET, LIVERPOOL.

GREAT REDUCTION in PRICES: GLAZED STONE WARE DRAIN PIPES.

DAVID MOUNTAGUE (late Turner and Mountague), Leigh Pottery, near Southend, Essex, now offer to the public Glazed Stone Ware Drain Pipes of the best quality at the following reduced prices:—

Straight Tubes with Socket Joints, in 3-foot lengths.

3 in.	4 in.	6 in.	9 in.	12 in.	15 in.	18 in.
3d.	3½d.	4½d.	6d.	10d.	1s. 4½d.	2s. 3d. per foot.

Closet pans, 6s. each; Traps, 3s.; Bends, Junctions, Filters, Jars, Basins, Chemicals, &c. &c. at reduced prices in proportion. A discount on the above prices dependent on quantity and mode of payment. Orders received and executed from his Wharfs, Pelham Wharf, 70, Bankside, Blackfriars; Harrow-bridge Wharf, Bromley, Essex; and at his Cement Works, Orchard-house, Rochford.

IMPROVED DRAINAGE BY ROYAL LETTERS PATENT.

STANDING, FRANKLIN, & STANDING, Sole Patentees and Manufacturers of the PATENT GLAZED STONE WARE SEWAGE PIPE. Offices, 38, Cornhill, entrance in Change-alley; Factory, Bermondsey Wharf, Commercial-road, Limehouse.

By employing their patent machinery, S. F. and S. are enabled to produce a Pipe for sewage and other purposes in every way far superior to those made by any other process, but more especially in those positions so absolutely essential to a perfect, and cleanly mode of drainage. From the great and uniform amount of pressure, and peculiar manufacture of the machinery (allowing the air to escape), used in manufacturing, these pipes are entirely free from all bubbles, proving their greater strength, durability; and entirely preventing the contents percolating through; they are much smoother on the inside, insuring a perfect passage for the sewage, and preventing any deposit.

Specimens may be seen at the offices, 38, Cornhill, where prices, &c., may be obtained, and Sections granted for the use of the patent machine.

THOS. LAMBERT and SON,

PATENTEES of the Flexible Diaphragm and High-pressure Valve Cocks,

Equilibrium Ball Valves, and Self-acting Water-closets; manufacturers of Hydraulic, Gas, and Steam Fittings, Tin, Lead, and Composition Pipes.

SHORT-STREET, NEW CUT, LAMBETH, LONDON.

ILLUSTRATED TRADE LISTS; containing much information useful for reference; also unsolicited testimonials respecting a MATERIAL which, when well wrought, is probably superior to every other for drains or conduits, for ridges, hips, valleys, and every part of roofs, for plain or ornamented floors, for paving and structures of a strong and durable nature, also many other purposes, supplied genuine by THOMAS PEAKE (proprietor of Peake's "Terra-Metallica"), 5a, CHEAPSIDE, CITY-ROAD BASIN, LONDON, and at THE TILERIES, TUNSTALL, STAFFORDSHIRE. The lists contain both prices by number and approximate cost by measure. It is solicited that letters be prepaid, and users of Stoneware or London prices are invited. Specimens at the GREAT EXHIBITION, Class 29, No. 139 (having been at the No. 1111).

FIFTY PER CENT. SAVED IN PLUMBERS' WORK, by the use of

JENNINGS'S INDIA RUBBER TUBE WATER CLOSETS,

which are made to ACT FROM THE MAIN.

Water Closets, as heretofore fixed, require a Service Box and a separate Service Pipe to each Closet.

Where JENNINGS'S CLOSETS are intended to be used all that is required is ONE MAIN PIPE OF AN INCH, or at most of 1½ inch, with BRANCHES TO THE CLOSETS on each floor; and the same MAIN PIPE is available for ALL SUPPLY PURPOSES, without interfering with the action of the Closets. By this plan any architect or practical plumber will see that not only a SAVING OF EXPENSE, but a simplicity of pipes is provided and consequently a NON-LIABILITY TO REQUIRE REPAIR.

The whole of the Closets in the SUPERIOR REFRESHMENT COURTS work on this principle, direct from an inch pipe, and the great satisfaction given is expressed in the FOLLOWING TESTIMONIAL FROM MESSRS. FOX AND HENDERSON:—

"Great Exhibition, Hyde-park, London, 30th May, 1851.

"Mr. George Jennings.

"Sir,—We have much pleasure in bearing our testimony to the very excellent character of your India-rubber Tube Water-Closets. Those which you have fixed here for the use of our offices, and also for the General Refreshment Courts (in which places they have been well tested), have given us very great satisfaction, and we shall be glad at all times to recommend their adoption.

"Your obedient Servants,

"FOX, HENDERSON, and CO."

These Closets can be seen at Messrs. BAYNES and BROWN'S, 44, Lime-street, Liverpool; at the offices of WM. HULL, Esq., G.H., Town-hall, Oxford; in the SUPERIOR REFRESHMENT COURTS of the Exhibition; at G. JENNINGS'S Stall in Class 30, or at his Factory.

Descriptive Drawings of JENNINGS'S SELF-CLOSING STOOL COCKS for COMMON CLOSET PANS, and for all other purposes, together with testimonials from eminent persons, sent free on application, as above.

MANUFACTORY, 39, GREAT CHARLOTTE-STREET, BLACKFRIARS-ROAD.

STEPHEN GREEN and CO.'S IMPROVED DRAIN PIPES, GLAZED INSIDE.—WORKS, IMPERIAL POTTERIES, PRINCES-STREET, LAMBETH.

Common-shape Closet Pans, well glazed inside, 7s. 6d. each.

Extra, if fitted with the patent air-tight valve, by which the trap can be cleansed without removing the seat, 1s. 6d. each.

Various patterns of improved shapes always on hand.

Straight Tubes, Junctions, Bends, Curves, Elbows, Syphon-traps, Flap-traps, Urinals, surface-sinks, and increasing Pipes always kept in stock.

Manufacturers of the

PATENT SYPHON FLUSHING-BASIN, WITHOUT METAL SPREADER, WITH SELF-ACTING CLOSET CONNECTIONS. Specimens of Pipes and Closets at the Great Exhibition, Classes 29 and 30. For illustrative drawings and testimonials see BUILDER, May 31, 1851.

JAMES STIFF, MANUFACTURER of GLAZED STONE WARE DRAIN PIPES, BENDS, JUNCTIONS, TRAPS, &c., 30, HIGH STREET, LAMBETH, LONDON. Established 1781.

Water Closet Pans, with Syphon Traps, 7s. 6d. each.

STRAIGHT TUBES, with Socket Joints, in 3 feet lengths.

The great advantages attending the use of these articles are now so generally understood, as to render any comparison of the old and improved. Their cleanness, efficiency, and durability, are universally admitted; while the rapidly increasing demand for them proves their estimated superiority over every other kind hitherto before the public for similar purposes.

Inspection is invited to an assorted stock of Drain Tubes, of every form and size, adapted to the various situations for which they may be required, as also to the WATER-CLOSET PANS OF IMPROVED CONSTRUCTION, and to every place for surpassing any other manufactured of Brown Stone Ware.

N.B. These are made without the discharge-hole beam to read downwards.

May be had almost Means. GLADDISH'S LIME WHARFS, Pedlar-walk, Westminster-bridge; City-road Wharf, City Basin; Dockhead, Bermondsey; Denver's Wharf, foot of Battersea-bridge, Chelsea; Pratt Wharf, Kingsland-road, Camden Town.

Drawings and List of Prices will be forwarded on application.
